Lisa

Lisa grew up without laughter, love or smiles. It was the worst time of her life. Her parents rarely showed any interest and she always felt alone. She learned to do many things on her own and her childhood quickly disappeared.

She eventually dropped out of school and married her high school sweetheart, thinking marriage would cure her years of loneliness. They both struggled to make ends meet on minimum wage jobs. Her marriage ended in divorce and soon after, she found out she was expecting a baby.

Lisa was referred to MAM by her church pastor. Determined to give her baby everything, she enrolled in the Employment Services Program. Lisa was also referred to mental health counseling to heal from the emotional scars of childhood neglect. Family Assistance helped her pay the rent and apply for insurance for her baby. She even enrolled in GED classes at MAM to be a good rolemodel for her son. Today she is stronger and more confident, making a livable wage with big plans for the future!

After finding help at MAM, I FEEL STRONGER NOW than ever before!
